GP GRANITE PROJECTS

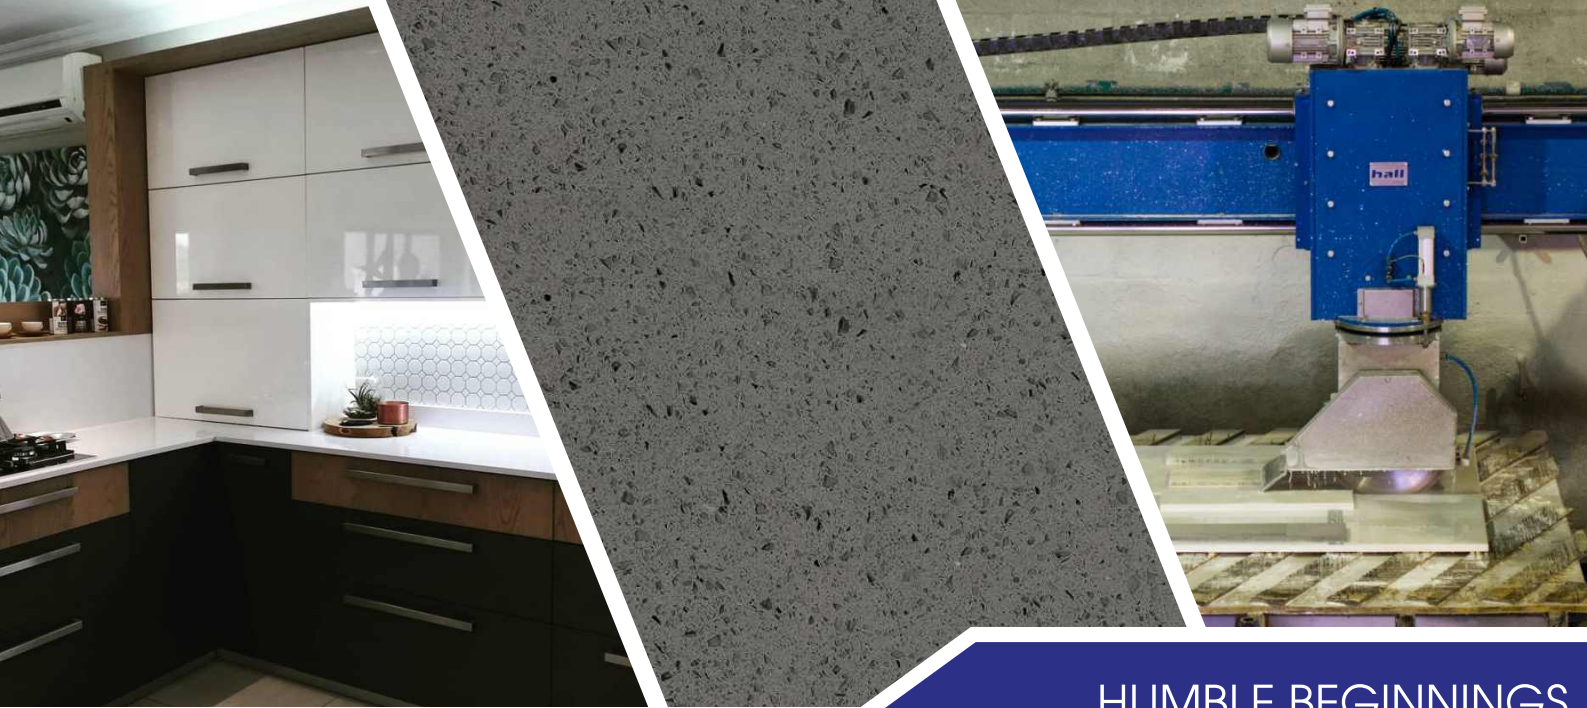

where stone meets design

QUALITY, ABOVE ALL

Granite Projects was established in 2006 by Founder - Mr Shawn Pretorius. The company has been providing innovative solutions to the stone counter top market ever since. The solutions automatically focuses on quality, excellence and after sales service. Granite Projects leapt to the forefront of the stone products manufacturing industry and has more than 70 years cumulative senior staff experience.

HUMBLE BEGINNINGS

The main drive behind the success of Granite Projects has, and always will be, the relentless pursuit of quality in Natural Granite, Marble & Quartz/Engineered stone.

"Quality sells itself"

This of course goes hand in hand with the calibre of employees employed by Granite Projects - the best of the best in the industry.

Working as a manager at Granite Objects Nelspruit, Mr Pretorius soon developed an unwavering urge to truly harness the raw beauty that can be found in Natural Granite, Marble & Quartz/Engineered stone. This set him on a path to fulfil his dream by creating one of the industry giants in Natural Granite, Marble and Quartz/Engineered stone manufacturers in South Africa, and Granite Projects was born in Cape Town.

Having applied the mantra of "Quality above all else", Granite Projects has attained uncharted success from its humble beginnings in 2006.

THE WORKSPACE

The factory is geared to produce quality products in high volumes on a daily basis. As an example, the company currently installs, on average, 10-14 assembled kitchens per day. We have an extensive clientele of established property developers who make use of our products and services on a constant basis in the South African market.

The company has a large staff of skilled, ready, willing, and able employees that thrive on the day to day intricacies of natural stone production. Our state of the art machinery ensures that we produce high quality work to meet our customers' exact requirements. Machinery in constant use includes 3 bridge saws providing a constant flow of base material blanks and CNC routers which produce consistent shaping & dimensional specifications required.

WHY CHOOSE US?

The company has grown to become the largest supplier in the Western Cape, when measured by monthly production.

We have longstanding relationships with all National Stone suppliers, & access to all quarries. With a reputable track record spanning over 15 years, our suppliers produce 80% of all polished granite products locally (Western Cape) & Nationally (SA) therefore enabling us to respond rapidly to all customer requirements. This on-going quality assurance commitment with each & every supplier safeguards the supply of top quality materials used by our craftsman.

The company's reputation is underpinned by its receipt of the "Supplier Service Award" from the Kitchen Association for primacy in customer satisfaction.

PRODUCT RANGE

The company's basic product range spans the following shape forms, materials, and finish types.

Types of material:

- Natural Granite
- Engineered/Quartz Stone
- Marble
- Sandstone

Finish types:

- Polished
- Honed
- Sandblasted
- Sawn

PRODUCT DELIVERY

We provide a completely transparent & secure delivery solution to give our customers peace of mind. Our dedicated team will manage & assist with production, manufacturing and delivery process, ensuring customer satisfaction.

We also encourage clients to inspect our facilities at any stage of the purchase experience for peace of mind & assurance of our commitment to quality & timely delivery.
